# PRESIDENT'S LETTER

MGS Members,

As we approach the final meeting of the 2024-2025 year, membership renewal for the 2025-2026 cycle is now open. Your continued support is essential to sustaining our society, and we encourage you to consider a donation to the Boland Scholarship Fund, which provides vital assistance to geoscience students across Mississippi. 2025 Scholarship winners were presented at the April meeting and are listed in the bulletin.

We extend our appreciation to Kyle Murray, SPE Distinguished Lecturer from Murray GeoConsulting, LLC, for his recent presentation on "Pathway for Recovering Valuable Elements of Interest from Subsurface Brines and Oilfield Produced Waters."

Our last meeting before the summer break will take place on Wednesday, May 14, 2025, at 11:30 AM at the River Hills Club in Jackson. Please note that we will not meet during June and July. This month's speaker is Mr. Mark Worthey, an accomplished oil and gas professional with extensive experience in exploration, development, and operations. He is the owner of McClaren Resources, Inc. and co-owner of DNRC, LLC. Previously, he served as Senior Vice President of Operations at Denbury Resources, Inc. His presentation, "Mississippi CO<sub>2</sub>: Why the State May Never Fully Reap the Value of Its CO<sub>2</sub> Reserves Without Legislative Relief," will offer valuable insights into the future potential for tertiary recovery in Mississippi. Lunch will begin at 11:30 AM, followed by the discussion at noon. The cost to attend is \$25, and payment by check or exact change is appreciated.

Additionally, we invite you to the Mississippi Geological Society Spring Fling, which will be held on Thursday, May 29, 2025, at Trustmark Park in Pearl. The Mississippi Geological Society has reserved a suite for the Mississippi Mud Monsters game against the Joliet Slammers. Membership for the 2025-2026 cycle is required, beginning June 1, 2025, and running through May 30, 2026. Concessions are not provided but will be available at the park. Tickets are available on a [first-come, first-served basis](#), and an RSVP is required. We appreciate your ongoing support of the Mississippi Geological Society. Further details can be found in the bulletin.

Membership renewal remains open through May. The membership year runs from June 2025 through May 2026, with delinquency beginning October 1 and removal from email lists on January 1. The membership form is included in the bulletin. Please ensure your renewal is completed promptly so you can continue to be a part of our society.

We look forward to seeing you at our final meeting before the summer break.

Best Regards,

Jonathan

# MAY SPEAKER

*Mark Worthey*

## **Mississippi CO<sub>2</sub>: Why Mississippi may never reap the full value of its CO<sub>2</sub> reserves without legislative relief**

Mark Worthey  
McClaren Resources

Wednesday, May 14, 2025

11:30 am Lunch/ 12:00pm Discussion

The River Hills Club  
Jackson, Mississippi

### **Abstract:**

Future potential for Tertiary Recovery in MS.

### **Biography:**

Mark Worthey is an accomplished oil and gas professional with extensive experience in exploration, development, and operations. He is the owner of McClaren Resources, Inc. and co-owner of DNRC, LLC. Mark was a founding officer and Senior Vice President of Operations at Denbury Resources, Inc., where he served from 1992 to 2006. Prior to that, he worked as a geologist and exploitation manager at Coho Resources, Inc. from 1985 to 1992 and began his career as a geotech with Newport Petroleum from 1984 to 1985. He holds a Bachelor of Science degree in Petroleum Geology from Mississippi State University, earned in 1984 following a four-year tour in the United States Air Force. Over his career, Mark has developed expertise in CO<sub>2</sub> Enhanced Oil Recovery (EOR) and has served on the boards of Genesis Energy, LP, and Rancher Energy. An avid outdoorsman, he enjoys hunting and fishing and divides his time between Smith County, Mississippi, and McKinney, Texas.

# MONTHLY POST

## *Dr. David Dockery III RPG*

### State Stones

David T. Dockery III, RPG

Mississippi Opal was designated as Mississippi's State Gemstone by the signing of Senate Bill 2138 by Governor Tate Reeves on May 3, 2023, but before that, petrified wood was designated as Mississippi's State Stone by Senate Concurrent Resolution No. 601 on April 14, 1976. This resolution was republished in the March 1983 issue of *Mississippi Geology* (volume 3, number 3) on page 13. Shortly after that issue of was published (Michael Bograd was editor, and I was the assistant editor), I wrote a letter to my wife's uncle Lester Yonkers in Michigan thanking him for sending me two Petoskey stones, one signed by Princes Petoskey. The stone signed by the princes was used in Invertebrate Paleontology and Physical Geology classes as an example of the rugose coral *Hexagonaria*, one of many fossils to be learned. I am considering retiring the stone from such use as the signature is too valuable to risk its damage.

In an email from Uncle Lester Yonkers granddaughter Mallory March, I saw a picture of my thank-you letter written by hand and on Mississippi Department of Natural Resources, Bureau of Geology, stationary (Figure 1).

## MONTHLY POST

### *Dr. David Dockery III RPG*

The emailed from Mallory said, “Hello, I was looking through my Grandpa GG’s bookshelf looking for books on earth, and I found your book with a note in it.” Mallory also showed a picture of the book, which was Mississippi Department of Natural Resources, Bureau of Geology, Bulletin 124, on the Lower Oligocene gastropods of the Vicksburg Group published in 1984. Figure 2 shows the Petoskey stone acknowledged in the thank-you letter in two views, one showing the polished surface with the six-sided coralites, and the other side signed by Princess Ella Jane Petoskey and dated October 12, 1969.

Figure 2

The following is from Petoskey Area.Com (Figure 3). Note in the last paragraph that the Petoskey Stone was named Michigan’s official State Stone in June of 1965, and Miss Ella Jane Petoskey, the only living grandchild of Chief Petoskey (for whom the area was named), attended the formal signing.

## MONTHLY POST

*Dr. David Dockery III RPG*

Figure 4 is an enlargement of Princes Petoskey's signature.

Figure 4

Ella Jane Petoskey  
10-12-69

Well before dinosaurs roamed the earth, over 350 million years ago during the Devonian period, the land we know as Michigan was located near the equator. Covered by a warm, shallow, salt-water sea, the colonial coral *Hexagonaria percarinata* thrived with other marine life in tropical reefs. The earth's plates moved and pushed Michigan north to the 45th parallel and above sea level, which created dry land formations. More recently, about two million years ago, glacial action scraped the earth and spread the fossils across the northern Lower Peninsula, depositing major concentrations in the Petoskey area. The prehistoric fossil, unique to the Traverse Group rock strata, is called the Petoskey Stone, and it became Michigan's official state stone in 1965.

Pet-O-Sega, which means "Rays of the Rising Sun" in the Ottawa language, was the birth name given in 1787 to the son of a French fur trader and his Indian wife. Pet-O-Sega grew up in an area northwest of present day Harbor Springs, became a respected landowner and businessman and, like his father, was recognized as an Ottawa Indian Chief. In 1873 the settlement on the Bear River was named Petoskey in his honor.

Petoskey became a summertime destination for Victorian tourists and the unusual fossil specimens were popular souvenirs. Study the Petoskey Stone and you'll see in each cell the pattern of the "rays of the rising sun," a romantic tie to the origins of the resort area. Besides, "I'm bringing you a Petoskey Stone" was much easier to fit on a postcard than, "Wait until you see the *Hexagonaria percarinata* I got you." In June of 1965 the Petoskey Stone was named Michigan's official State Stone and **Miss Ella Jane Petoskey**, the only living grandchild of Chief Petoskey, attended the formal signing. In the city that bears his name, a bronze statue of the dashing Petoskey stands on a bluff overlooking Little Traverse Bay.
